

CLIMATE CHANGE CLUB in a BOX CONTENTS

Session 1 – Why is climate change happening?

Session 2 – Physical effects of climate change.

Session 3 – How to tackle a ‘super-wicked problem’!

Session 4 – Impacts of climate change on children around the world.

Session 5 – Energy!

Session 6 – What is Carbon?

Session 7 – The Climate is changing, we need to too!

Session 8 – Climate Change and our natural world.

Session 9 – Net zero.

Session 10 – There’s no Planet B – so it’s time for action!

If you won't have time for all 10 sessions can I suggest that you prioritise Sessions 1,2,3,6,7 + 10

We have one request – please could you keep us in the loop?!?

Please could you:

- Let us know what you think of the resources!
- Let us know when you're launching it, and with which group of children.
- Send us photos of children participating in the club, and / or the things they create!
- Send us feedback – good and bad!! However brief your feedback is it will help us improve what we can offer next time.

It would be fantastic if you could share this Climate Change Club in a Box with others who you think might be interested.

We're trying to grow our presence on Social media – so if you're able to follow us / repost / tag us – then we'd be very grateful! So far we're on Facebook and Instagram –

@youngclimatewarriors, or #youngclimatewarriors.

Please shout if there are any technical glitches – and we will try and resolve them!
